A. Introduction

Because this document is a compilation of the amounts contributed and expended to influence nominations and elections pursuant to Chapter 130, RSMo, it can only include information that has been reported to the Missouri Ethics Commission by the committees and persons that are required by state statute to file such reports. It therefore does not contain information concerning federal elections or local elections held in Missouri in 1998 for which there was no state reporting requirement.

Section 130.026 RSMo, defines under what circumstances the Missouri Ethics Commission functions as the appropriate election authority or officer for candidates, committees, and ballot measures, and therefore establishes who is to file campaign finance reports with the Commission. The Missouri Ethics Commission is the appropriate filing officer for: 1) candidates for statewide office; 2) statewide ballot measures; and 3) certain local elections as provided by the statute. Therefore, campaign finance reports for these three types of events are to be filed with the Commission.

The Missouri Ethics Commission is not the appropriate election authority or officer for the receipt of campaign reports for the following elections: 1) city and county elected offices in cities and counties of less than 100,000 population; 2) school districts and other special districts' elected offices; and 3) ballot measure elections which are conducted on less than a statewide basis. Information concerning these elections and ballot measures are therefore not reported to the Commission and could not be included in this compilation. Information concerning those elections or committees that do not report to the Missouri Ethics Commission can be obtained through the local county clerk's office or local election authority.

U.S. Congressional and Presidential candidates file their reports with the Federal Elections Commission rather than the Missouri Ethics Commission. This document therefore does not contain information on federal candidates. However, copies of those reports are on file in the Commission's office.

The information contained in this document is based solely on the data supplied by candidates and committees in campaign finance disclosure reports filed with the Missouri Ethics Commission. Those disclosure reports are routinely audited, within the scope of authority granted to the Commission by statute. However, in this compilation, minor variations in the compiled numbers may occur due to mathematical rounding of the numbers.

B. Definitions

On the following pages the terms "receipts", "expenditures", and "contributions" are used. Provided below are definitions of each of these terms.

1. Receipts: The total of all contributions received and other receipts reported in support of or in opposition to a candidate or ballot measure for the election.

2. Expenditures: The total expenditures in support of the candidate(s) reported in support of or in opposition to a candidate or ballot measure for the election.

Contributions: The contributions made in support of or in opposition to other candidates, political parties, ballot issues, committees, or organizations reported for the election.

1998 Election Year

The year 1998 was a major election year. The position of State Auditor as well as all of the House of Representative seats were up for election. Half of the State Senate seats as well as half the Circuit Judge districts also held elections. Other positions up for election included, Associate Circuit Judge, County Clerk, and numerous county positions. On the following pages the elections are listed by office sought. Each candidate who ran in a primary election owed the following reports: April Quarterly, July Quarterly, a 7 day before the primary, and a 30 day after the primary campaign financial disclosure report. In general, each candidate who ran in the general election owed the following reports: October Quarterly, a 7 day before the general and 30 day after general campaign finance disclosure report.

The figures listed on the following pages were obtained exclusively from reports, including amendments to reports,

filed with the Missouri Ethics Commission. Such reports represent the only valid source of receipts, expenditures, and contribution information for Commission purposes. Specifically, the figures were obtained from information contained on the CD Summary page of each report, which is a summary of all activity conducted by a committee during a given time period. The receipts were obtained from Line 7 of each CD Summary page. The expenditures were obtained from Line 14 of each CD Summary page. The contributions were obtained from Line 19 of each CD Summary page. Therefore the following figures can reflect only the information contained in reports filed with the Commission on the day this compilation was made. Reporting information concerning candidates who were disqualified or withdrew is not listed in this compilation.

¹N/A is used to show that no receipts or contributions were reported due to the filing of an exemption statement.

²Under Missouri law, a candidate for statewide elected office, general assembly, judicial office other than municipal judge, or municipal office in a city with a population of more than one hundred thousand can file a statement affirming that he or she will spend less than \$500 per election. If an exemption statement is filed, a candidate is not required to report those expenditures under \$500.

All other candidates are not required to sign an exemption statement if the aggregate of contributions received or expenditures made by the candidate and any other person with the candidate's knowledge and consent in support of the person's candidacy does not exceed \$1000 and the aggregate of contributions from any single contributor does not exceed \$250.

The individual reports containing the information from which this compilation was made are available for review in the office of the Missouri Ethics Commission.

¹N/A is used to show that no receipts or contributions were reported due to the filing of an exemption statement.

²Under Missouri law, a candidate for statewide elected office, general assembly, judicial office other than municipal judge, or municipal office in a city with a population of more than one hundred thousand can file a statement affirming that he or she will spend less than \$500 per election. If an exemption statement is filed, a candidate is not required to report those expenditures under \$500.

All other candidates are not required to sign an exemption statement if the aggregate of contributions received or expenditures made by the candidate and any other person with the candidate's knowledge and consent in support of the person's candidacy does not exceed \$1000 and the aggregate of contributions from any single contributor does not exceed \$250.

City Elections

City of Independence Elections

1. Primary Election

The City of Independence primary election for the offices of mayor and city council was held on February 3, 1998. This election was non-partisan. A total of nine candidates filed for office. However, if less than 3 candidates filed for an office, it was unnecessary under the city charter to have a primary election for that office. Because of this the two mayoral candidates, Ron Stewart and John Pennell, did not run in the primary. The remaining seven candidates filed for the office of city council. Their receipts, expenditures, and contributions are as follows:

<u>Candidates</u>	<u>Receipts</u>	<u>Expenditures</u>	<u>Contributions</u>
